We know exactly what is important in shower cubicle design, construction and installation due to our extensive experience in renovating bathrooms (since 2000). Consequently this shower cubicle will have a long life and is easy to look after. Our shower trays are approved by Housing New Zealand therefore our trays are proven as being robust and sturdy after surviving a 200 KG weight being dropped 5000 times onto the shower tray without any structural damage at all, as a result expect these trays to last many years.
