* **Hygienic Sanitary grade acrylic** * **2mm thick** * **Scratch and mould-resistant** * **Easy to clean** * **Flat or moulded walls**

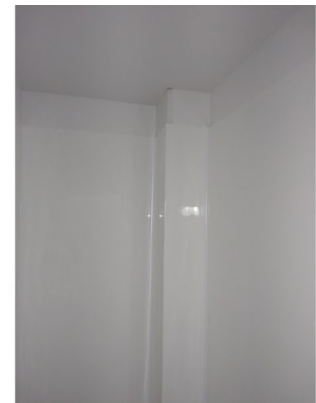

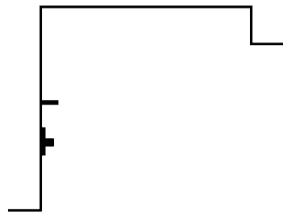

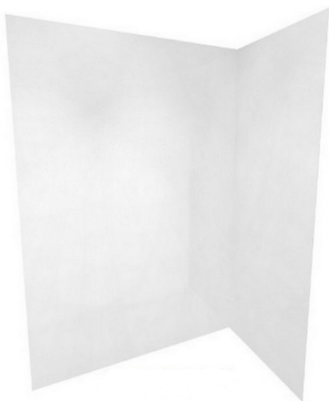

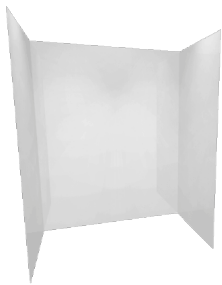

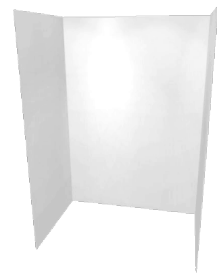

Notes on Shower Liners A shower liner is one of the quickest and most hygienic ways to waterproof your shower walls. Our shower liners (sometimes referred to as PVC) are actually made of a composite high quality white acrylic material. The hi-tech plastic material has a sanitary grade acrylic surface, which is UV and impact resistant, and can be folded and moulded to any shape using a vacuum forming process with specialist tooling. Bathroom Direct supply a shower liner custom made folding and moulding service, plus offer a range of standard sizes to suit existing shower trays currently available on the market from a wide range of shower tray suppliers, including our own acrylic shower trays. Our factory, conveniently located in East Tamaki, Auckland, offers custom size shower liners with a 2 Business day turn around time. We supply home owners, builders, plumbers, home renovators or renovation companies. Customers can order their custom size shower and bath liners one day, and collect them 2 days later, ensuring a hassle free service and quicker build times for your projects.
