

SPA BATH COLLECTION

Rosemary Back to Wall Spa Bath

Four adjustable massage jets finished in bright silver.

This is a freestanding, one-piece bath that requires no timber bath frame or support timbers.

Fully self-supporting, with adjustable feet.

Designed to be pushed up against your finished bathroom wall, silicone sealed, and then enjoyed.

One-piece construction with welded seams make for quick and easy installation and removal, if required.

Tapware is not supplied but can be either wall mounted or fitted onto the bath itself.

Optional contoured head rests.
Also available as a bath only option.

Sophia Spa Bath

- Industry standard size: **1675L x 760W x 460H**
- Specially designed as a shower over bath
- Deep and long, designed for 6ft persons
- Non-slip floor at the shower end
- High upstand lip around all four sides makes this bath reversible
- Shower over bath, left or right-hand installation
- Designed for a standard 40mm bath waste at the shower end
- Contoured arm rests and sloping reclining area
- Acrylic surface for easy clean
- Four adjustable massage jets
- 1hp pump
- Headrest optional

Our new Sophia, shower over spa bath, has been specifically designed by our engineers as a modern yet functional spa bath. The Sophia can function as a shower over bath, incorporating a bath screen or Dreamline sliding shower door set.

The Sophia features a wide showering area at the waste end of the bath, with a non-slip floor pattern.

When used for bathing, the bath features contoured arm rests and an optional contoured soft head rest, which is also reversible.

A standard sized 1675 x 760 bath, now available as a spa bath.

The bath has four adjustable massage jets, finished in bright silver.

The Sophia bath and spa bath both feature 25mm upstands on all four sides of the bath. These upstands have been pressed in the manufacturing process to give a defined and straight upstand

which is ideally suitable for an acrylic wall lining, or for tiling. A high lip is essential for the water tightness of a shower over bath installation.

Installation of the Sophia bath and spa bath is easy as it has fully self-supporting rings on its base, and is sloped towards the drain hole.

Made from sanitary grade acrylic sheet and re-inforced with fibreglass matting, this bath is not only stylish, but durable as well.

Optional contoured head rests. Also available as a bath only option.

We also custom make acrylic wall linings, with or without moulded wall caddy, to compliment our range of baths.
